## SUMMARY

Sophomore at R.M.K. College of Engineering and Technology pursuing a Bachelor of Engineering in Computer Science. A passionate and self-motivated web developer and competitive programmer with extensive experience in JavaScript and its frameworks. Adept at problem-solving and proficient in Java programming, I actively seek opportunities to learn from industry experts by attending project presentations and coding events. I have solved around 3000 problems in various coding platforms, and I am driven to innovate and contribute meaningfully to the world of technology.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, C++, SQL, JavaScript

**Web Development:** HTML, CSS, React.js, Angular, Node.js, Express.js, MongoDB, MySQL, PostgreSQL

**Libraries & Tools:** Git, GitHub, VSCode, Postman, Insomnia, MongoDB Atlas

## PROJECTS

### MERN Blog App

Jun 2024

Full Stack Web Development Project

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed a MERN stack Blog application showcasing proficiency in full-stack web development.
- Implemented robust and scalable database management with MongoDB.
- Created a powerful and flexible backend using Express.js.
- Built a dynamic and responsive user interface with React.js.
- Ensured efficient server-side operations with Node.js.
- Designed a modern and intuitive UI using Tailwind CSS.
- Managed state effectively with React Redux for seamless user interactions.
- Implemented secure authentication with JWT (JSON Web Tokens).
- Key Features: Admin functionality for blog post management, user functionality for reading and commenting on posts, secure authentication, and responsive design.

## EXPERIENCE

### Freelancing

Jan 2024 – Present

- Developed responsive landing pages using HTML, CSS, JavaScript, and frameworks such as React and Angular.
- Designed and implemented portfolios for clients, ensuring optimal user experience and accessibility.
- Utilized backend technologies including Node.js and Express to create dynamic and interactive web applications.
- Integrated RESTful APIs to enhance functionality and interactivity of web applications.
- Collaborated with clients to understand their requirements and translate them into functional and aesthetically pleasing websites.
- Conducted performance optimization and SEO to improve site performance and visibility.
- Presented progress and final deliverables to clients, incorporating their feedback for iterative improvements.
- Maintained and updated existing websites, ensuring they remain current with the latest web standards and technologies.

## EDUCATION

**R.M.K. College of Engineering and Technology**  
Bachelor of Engineering in Computer Science

Chennai, India  
Expected May 2027
